

How to COIL (Collaborative Online International Learning)

Kumamoto University FD Program for Globalization of Education

2021.3.9 Tue
14:00 ~ 15:00

Seminar + ZOOM Webinar

COIL is an online education scheme, which originated from State University of New York as an inter-campus communication system. This has been used recently for collaborative international teaching and learning experiences using ICT tools like ZOOM, Google and Facebook. In this FD program, 2 speakers who have implemented the scheme will share their experiences with the goal of helping the participants to globalize their courses especially during this challenging pandemic situation.
