

Why did you choose to study at KU?

During my undergraduation I used to listen from our teacher about attractive Japanese culture, research, and longevity of Japanese people and from that time I dreamed to study in Japan. My research interest was tumor selective and safe cancer treatment and luckily, I found a professor in Kumamoto University who was trying to develop safe cancer therapy. Then I wrote to him about my interest and my cherished dream become true to pursue my higher study in the beautiful island of Kyushu.

How is your student life in Kumamoto or Japan?

Now my life is going well in Kumamoto. But, honestly last 3 years my life was so difficult and I passed very hard-time, because I did not have any better scholarship. Although I had excellent educational background and I published more than 10 research articles in reputed peer review journal, but unfortunately, I have not received any scholarship. Finally, this year I have been selected by Mitsubishi corporation scholarship and now I am a little bit good shape. Currently, I am PhD 4th grade student at the department of Microbiology under the supervision of Professor Tomohiro Sawa. I am working with the Drug Delivery System especially development of tumor selective and safe nanomedicine based on EPR effect. Recently I have developed two nanomedicine which show excellent antitumor effect in various tumor model. The cancer drug design, cell culture technique and animal study are very time consuming that's why I can not do any part-time job.

Any message and/or advice to those who wish to study at KU?

Kumamoto University provides very nice environment for education, research, and culture, so you can apply to this University without any hesitation. Moreover, Kumamoto University is located at wonderful Kyushu island, so you can not only build your best career, but also you can enjoy your life with your friends and family in such a lovely weather of Kumamoto city. One important message to all of you when you wish to apply at KU, please try to manage funding for your accommodation before coming, otherwise life become a bit difficult for you.
