of herbal plants are cultivated on a 7,000m2 area which includes the Medicinal Plant Garden and the Tree Garden. A tour of the garden and various seminars such as "Basic Chinese herbs" are held regularly. Open from 9:00 to 17:00 on weekdays. Free admission.

## 2 Baniikan Hall

The hall includes a co-op restaurant, a shop, and a seminar room for special lectures. The restaurant is open from 11:30 to 13:00 and the shop and the bookstore are open from 10:00 to 16:00 on weekdays only.

# Kumayaku Museum and

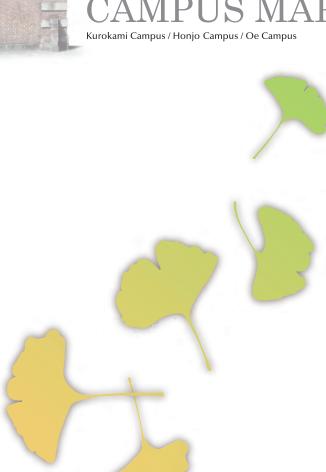

The Kumayaku Museum in the alumni house features the exhibition of century-old invaluable documents on the tradition of the School of Pharmacy and its rare experimental instruments. The Mivamoto Memorial Hall was founded through a donation by Yoshihiro Miyamoto, who was a former student of Kumamoto Pharmaceutical Academy, the predecessor of the School of Pharmacy. The hall serves as a forum for education and research.

The restaurant is open from 11:30 to 13:30 on weekdays.

# Kumamoto University CAMPUS MAP

The building was completed in 1908 as a machine experimental factory of Kumamoto Junior College of Technology. The red-brick building and machine tools were designated as a Nationally Important Cultural Property. Also these are certified as "Machine Heritage" by the Japan Society of Mechanical Engineers. The building is open to the public every third Thursday from 13:00 to 16:00.

## 100th Anniversary Memorial Hall

In commemoration of the 100th anniversary of the Faculty of Engineering, the hall was completed in 2004 with donations from alumni, faculty affiliates and corporations. Events such as lectures and concerts are held in the hall.

esearch and Developmen

B Headquarters for

It was established with the aim of central izing the university-wide research support and management system. Its activities are aimed at enhancing the university's research capacity while contributing to addressing regional issues.

### 4 D-Square

An educational hub for digital transformation and semiconductors. Its goal is to foster highly skilled professionals by engaging undergraduate and graduate students in various collaborative research projects alongside researchers in the fields of data science, artificial intelligence, and semiconductors.

tory) is one of the open labs managed by the Research and Development Strategy Division. As a facility for promoting joint research in the field of semiconductors, it aims to enhance research capabilities through a wide range of joint research projects, from next-generation cutting-edge research to implementation

## Center for Water Cycle, Marine Environment, and Disaster Management(CWM

CWMD consists of four laboratories namely Water Resource Research Laboratory: Marine Science Laboratory: Disaster Mitigation Laboratory and Urban and Regional Design Laboratory. This center leads research and education in the area of groundwater resources in Kumamoto, marine environment around the Ariake Sea and the Yatsushiro Sea, disaster mitigation, community design and participation.

## 7 FORICO (Cafeteria and Sto

The nickname "FORICO" was coined by a student, meaning "for students of Facul ties of Science and Engineering". Shop & Bakery is open from 10:00 to 19:00 and Restaurant is open from 11:00 to 19:00 on weekdays.

# Magnesium Research

The center has been extensively involved in a variety of magnesium-related research areas since its establishment in December. 2011. These include alloy design, casting metal formation, mechanical properties. corrosion, surface treatment, and recycling

# Institute of Industrial

The mission of the institute is to promote researches bringing into new industrial applications, such as 2-dimentional nano-sheet and others, through various interdisciplinary approaches based on nanomaterials and materials informatics as a world leading research organization in the related field.
