

Seminar

Global Opportunities for Future Doctors

2026 **October 20** 17:30 start

Honjo North Campus, Medical Education Library Building,
6th floor, Meeting Room

Fulbrighter

Dr. Joyce Trompeta, PhD, PNP ★ ★ ★

University of California, San Francisco (UCSF)
School of Medicine, Professor, Surgery

Dr. Trompeta conducts her research at Kumamoto University, the Japanese Red Cross Kumamoto Hospital, and various academic institutions throughout Japan.

She has created "The Kumamoto Model," a strategic plan to increase deceased organ donations in Kumamoto Prefecture in Japan. The Kumamoto Model (KM) mission is: to change the Japanese social climate regarding organ donation consent, to establish Japan's self-sufficiency for transplantation by increasing the availability of organs, to create an efficient organ procurement organization, and develop culturally tailored organ donation educational programs.

Program

17:30 Opening remarks

Dr. Junichiro Yasunaga, Deputy Director of Graduate School of Medical Sciences

17:35 Introduction of the speaker, Overview of organ transplants and donations in Japan, and Experiences studying in the US
